

TANK & PUMP

The Enviromist Tank System is specifically designed for use with low volume CDA equipment as well for spot spray application.

A 60 litre tank can spray up to 4 sprayed hectares before refilling, at CDA low spray volumes of 15l/ha.

Note: Care must be taken to ensure that carrying vehicle load capacity is not exceeded.

Flojet Pump for rugged, reliable performance.

The unit is capable of 4.95 litres per minute - sufficient capacity for both spot spraying as well as CDA use. Housed for maximum protection, yet still easily accessible for maintenance.

In-built Flushing Tank.

The 3.5 litre fresh water flushing tank is positioned for easy-fill access. Fits snugly into the complete unit design.

Designed for practicality, durability and comfort.

The tank is entirely moulded from heavy duty plastic for a maintenance-free long life. It has been designed to mould around the driver for greater comfort. The overall design achieves capacity yet keeps a low, sleek profile.

Fits all current ATVs

The tank is light and easy to handle and can be quickly mounted or removed. Coupling to a sprayer unit is simple.

Will fit all current model ATVs..
