

ENVIROMIST UNDAVINA

SHROUDED SPRAYER

Undavina 900

- Specially designed for vineyard and orchard use.
- Simple and easy to use.
- Improves chemical efficiency.
- Protects plants from bark damage & spray drift.
- Four sizes available - the Undavina 250, 400, 600 & 900.
- Optional slip on cover.
- Universal fittings for all 4 wheel ATVs and most tractors.

Breakaway system protects plants.

Plant health is protected with Enviromist's breakaway system which gently deflects and rolls around young plants while the shroud protects the butt from harmful, unwanted spray.

Some facts and figures:

Model	Spray Width	Spray Speed	Total Flow Rate	Total Weight
Undavina 400	450mm (18 inches)	4-8 kph 2.5-6 mph	10-12 lph (2.6-31. Usgal)	20 kg (44 lb)
Undavina 600	600 mm (24 inches)	4-8 kph 2.5-6 mph	10-12 lph (2.6-31. Usgal)	21 kg (46 lb)
Undavina 900	900mm (35 inches)	4-8 kph 2.5-6 mph	10-15 lph (3.1-4 Usgal)	23 kg (51 lb)

The Undavina provides efficient control of weeds around the base of vines and trees using the cost saving advantages of proven and advanced Enviromist technology. The Undavina has been developed especially for under vine strip spraying in vineyards, however its versatility has led to use in other varied growing situations including trees. Being able to spray volumes as low as 15 litres per sprayed hectare gives the Undavina many advantages over conventional spray methods. Enviromist's advanced technology increases accuracy of spray delivery, achieves optimum coverage with lower mixture volumes, and virtually eliminates drift.

Flow control at your fingertips.

Enviromist's control system allows for flow monitoring of each individual spray head as well as a light indicator to monitor the working of the CDA motor.

Advanced CDA Technology makes every drop count.

The Undavina features Micron Controlled Droplet Application (CDA) spinning disc rotary atomisers to produce optimum sized spray droplets for maximum spraying efficiency.

maximum spraying efficiency.
