

# ***Enviromist Hedger Kit*** ***makes light pruning easy...and cheap!***

---

***The adaptability of the Enviromist Hedger Kit allows you to mount your hedger unit on to any ATV - making expensive tractor-mounted pruners unnecessary.***

*Now light "green trimming" is a breeze with no need to fit-out and crank up that gas guzzling tractor. This rugged and reliable hedger mounting will fit all existing Enviromist ATV mounts or is available with an optional fitting for non-Enviromist mounts. Its universal mounting plate suits all types of hedgers and single or double-sided mounts are also available.*

*The Enviromist Hedger Kit is height and width adjustable and features a proven and reliable breakaway system that allows you to prune down rows and turn row-ends without constant stopping or interruption. Strongly constructed from powder-coated steel, the Enviromist Hedger Kit will give you season after season of trouble free operation. It's the fast and efficient way to control summer vine growth and to tidy up trailing canes before spraying, thus eliminating the chance of chemical damage to your vines.*

***Get The Enviromist Advantage.***
